One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the server that you have returned to a specific page. For example, if you personalise the Website pages, or register with the Website site or services, a cookie helps the Website to recall your specific information on subsequent visits. This simplifies the process of recording your personal information, such as billing addresses, shipping addresses, and so on. - Functionality cookies. These are used to recognise you when you return to the Website. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).
- Targeting cookies. These cookies record your visit to the Website, the pages you have visited and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services, online payment systems, the online shop or competition management systems) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.
